Barn Quilt Trails

Reflecting the culture and character of the local area, Barn Quilts are painted on a single board and painted to look like quilt blocks. They are often hung on the exteriors of barns and other buildings, creating a trail for visitors to explore. Originating in Adams County Ohio, the age-old tradition of honoring and capturing local heritage, historical events, agricultural character, and beauty came to St. Lawrence County in 2014 with the first barn quilt trail in Hammond, New York. Currently, barn quilts hang in several towns with two barn quilt trails running through the county.
